

With this adapter its possible to mount a Bobike front child seat on the bench of the cargo bike.

The parts included in this kit (see picture 4):

- 2x M6 30mm bolt
- 4x parker
- 4x 6mm washe
- 4x 5mm washer
- 2x M6 cap nut
- 2x cord

Step 1.

Decide the position of the shackle on the bench and drill two holes for the M6 bolts.

You can chose yourself where to mount the shackle on the left, right or in the middle (see picture 1 and 2).

Step 2.

Mount the two small cords in the corner of the bench and the rearpanel with the four included parkers and washers (see picture 2). These cords act as a safety mechanism for when the hinge breaks.
